

## CREATIVE SCHOOL

DELIVERING CREATIVE AND CRITICAL THINKING EDUCATIONAL APPROACHES TO SCHOOLS

in partnership with museums, science centres and galleries.

## A STRATEGIC PARTNERSHIP

## The idea

More and more children and young people need to develop higher level thinking skills in order to find solutions to social, emotional and economic problems, both personally and in the context of the wider world. They are encouraged to be creative, innovative, enterprising and adaptable, with the motivation, confidence and skills to use creative and critical thinking purposefully.

The Creative School project will develop learning modules for children and school teachers, promoting self-directed learning, critical and visual thinking skills by using cultural heritage content made available by the partner organisations.

**Activities** 

1. Analysis of training and information needs of teachers, educators, children and also parents.

2. Production of training materials focusing on the development of thinking skills recommendations aimed at through engagement with cultural heritage.

3. Production of guidelines and influencing policy makers and curriculum decision makers.
